TUESDAY NOVEMBER 29, 1910

In this world the one thing supremely worth having is the opportunity to do worthily a piece of work the doing of which is of vital consequence to the welfare of mankind.
—Roosevelt.

Having decided that Christianity makes no distinction in the race, color or nationality of mankind, the Honolulu Y. M. C. A. is in a position to go forward and accomplish something for the common good.

FEDERAL FUNDS FOR EDUCATION.

Delegate Kuhio's splendid record in securing recognition of the Territory under the Federal appropriations for harbors, defenses, public buildings, scientific investigation of leprosy, and a general adjustment of these islands to the status of a full-fledged Territory gaining all the benefits of an integral part of the Union, would be crowned with still greater achievement if he could return from the coming short session of Congress with the report that the Dilliver-Davis bill had become law and Hawaii had secured its full share of Federal funds under that law.

There is no fear that the Delegate will do his utmost to impress upon Congress the great importance to these islands of this Federal legislation.

To make his effort more effective, however, he must have the aggressive support of the people of the islands. Members of Congress who will hear the arguments of the business men and educators of the mainland must also hear from the people of Hawaii that this particular measure goes far toward solving one of our serious educational problems. Under the Dilliver-Davis bill as it is now before Congress, high schools for industrial training would be established on every island of the group and perhaps more than one on each island. Through these institutions the youth of the land could gain the training that will put them in a position to make the most of the opportunities presented in this land of agriculture.

Hawaii has always made the just claim that it should receive for educational purposes a share of the revenues paid the Federal Government through our custom house and the internal revenue department.

This bill will enable Hawaii to obtain a liberal Federal endowment for its public school system without putting the Territory in the position of calling for special legislation.

Our people should make up their minds to provide liberally from local revenues for the public schools and thus demonstrate to Congress our exceptional right to recognition through the passage of this law that will supply a great need of the youth and at the same time be a fitting memorial to one of the greatest progressive leaders of our common country.

Every citizen should be alert to render whatever assistance the Delegate and those with whom he will work in Congress may suggest, to forward the Dilliver-Davis law that means so much to the future of the boys and girls of Hawaii.

SHRINERS WILL M'QUAID CASE COME IN FORCE UP TOMORROW

(Continued from Page 1.)

Williamina had received pratique white at sea.

According to Mr. McCandless, all arrangements for the assembling and transportation of the visiting Shriner have been completed. A fine program has been mapped out and all is in readiness for the delegation to take up the pilgrimage to Honolulu tomorrow.

The matter of sending forth the invitations and the receipt of their acceptance has been placed in charge of the Imperial Potentate Council of Hines. Shriner from all over the United States have been bidden to make the trip and the list of those who signified their intention of coming are men drawn from the highest ranks in the professional and commercial life of the mainland.

The local Shrine is more than enthusiastic over the invasion of visitors. Mr. and Mrs. McCandless were the recipients of a hearty reception at the hands of the delegation of local Shriner who paid their respects to the guests who had come up along the wharf this morning.

W. M. McQuaid will probably now waive examination in the District Court and his case will come up for hearing before Judge Lymer tomorrow morning.

McQuaid is represented by Attorneys Douthett, Coke and Stanley, who accompanied McQuaid at court this morning but at the request of Prosecuting Attorney Cathcart the matter was carried over until the following day.

MANILA ELKS DEDICATE CLUB

On Thanksgiving Day the Manila Lodge of Elks dedicated its new clubhouse with appropriate ceremonies, the new club being the finest of any in Manila now and the new army and navy being second to it.

Both clubs are built on the extension of the Luneta within a stone's throw of the bay and are constructed of reinforced concrete. Description of the Elks' Club in a

BETHEL STREET

The office of the
Wireless

is now in the Telephone Building on
Adams Lane. A telephone call will
bring a boy for your message.

Recent issue of Cablenews-American
follows:

The building is of a peculiar architecture—Italian, adapted to tropical conditions and concrete construction. It has three stories and a roof garden that is a dream of the gods. This roof garden offers the finest view in all Manila, and the breezes up there take one back to days of Bar Harbor and Cape Porpoise. With a moon, an orchestra and a ladies' night, this garden spot will be popular beyond expression.

The main lodge-room is on the second floor and is two stories high. It will be furnished with Mission furniture from the United States, and the floor will be of Philippine narra, which is a great deal like rosewood. The library is also on the second floor, in front, overlooking the Luneta. Upstairs are twelve spacious bedrooms for the use of members that come in from the provinces for a short stay and for guests of the lodge.

On the ground floor are the dining room, cafe, billiard room, ladies' reception room and kitchen.

OAHU COLLEGE TO DEVELOP ART

Course Along Popular Lines
Will Be Given After
Christmas.

The Trustees of Oahu College announce that a new course in "The Appreciation of Art" will be given at Punahou after the Christmas vacation, by Mrs. P. L. Weaver. The course will be in the nature of talks, twenty in number, on those things in art which the ordinary observer can appreciate and admire. The course will not be technical but will deal with the subject in such a way as to make it interesting to all. Such a course will be an admirable preparation for a trip abroad and at the same time will go far as a substitute for such a trip. In telling just what to look for in a picture, or in a school of painting, it will help to give the means of engagement in observing any picture. By grouping famous pictures in the galleries the talks will make it easy for a visitor to pick out the really famous works of art in any gallery which she may visit.

Photographs and prints will be used largely as illustrative material and as a basis for talks and for questions. A large additional order of books especially selected for this course has gone forward. These will be placed in Cooke Library for the use of the class. A tuition fee sufficient only to cover the expenses of the instruction will be charged for the course.

ECZEMA A GERM DISEASE.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festering, thick scales and that terrible itch. The germs multiply faster than Nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dosing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that is also why salves which do not penetrate can do no permanent good.

Ordinary oil of wintergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissue of the skin and promote its healthy growth, giving Nature a chance, while killing the germs faster than they can multiply.

Honolulu Drug Company of this city recommends D. D. D. Prescription, also D. D. D. Soap.

The grand old saying, "It is never too late to mend," must have been written by the mother of a large family of growing children.

"Throwing money to the winds" makes the aviators fly for it—Atlanta Constitution.

CASTORIA

for Infants and Children.

What is Castoria?

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance (Narcotics stupefy). Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The signature of *Dr. H. Fletcher* is on every wrapper of genuine Castoria. Physicians Recommend Castoria.

"My patients invariably praise the action of your Castoria." W. W. TAYLOR, M. D., Buffalo, N. Y.

"During my medical practice I know of several cases where your Castoria was resorted to and used with good results." K. MONROE, M. D., St. Louis, Mo.

"Your Castoria is certainly the greatest remedy for children I know of. I know no other proprietary preparation which is its equal." B. S. SCHWARTZ, M. D., Kansas City, Mo.

"Your Castoria is the best remedy in the world for children and the only one I use and recommend." JAMES V. SWEETLAND, M. D., Omaha, Neb.

Children Cry for Fletcher's Castoria.
In Use For Over 30 Years.

An Appreciated Gift

Has value in the eyes of the receiver for its beauty and usefulness. Imported Chinese goods have both these qualities.

Among the articles we are showing are DRESS SILKS, SILK SHAWLS, HANDKERCHIEFS and SHIRT WAISTS in all colors.

Buying is made easy when you see this display.
